DETAILED ACTION

Allowable Subject Matter

Claims 8,30-32 are allowed.

Claims 19-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Objections

Page 2 of the newly filed amendment contains part of claim 33; clarification is required.

Claim Rejections - 35 USC § 103

Claim 33 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ephraim et al in view of Walsh. Ephraim discloses a grinder including stationary and rotary burrs, an auger feeding material to them, and adjusting means for the rotatable burr. The auger does not extend into the space between the burrs which may result in inefficient material feed. Walsh solves this problem by disclosing similar apparatus including the use of an auger extending into the space between burrs. In order to efficiently feed material, it would have been obvious for one of ordinary skill in the art to modify Ephraim et al by extending the auger into the space between the burrs, taught to be desirable by Walsh.

Response to Arguments

Applicant's arguments filed 11/4/10 concerning claim 33 have been fully considered but they are not persuasive. Claim 33 incorporates claims 13-15 and 18. In

Art Unit: 3725

the previous office action, none of these claims was indicated as showing allowable subject matter. Thus, the rejection previously set forth for these claims has not been argued and is held to be appropriate at this time.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
